CITY COUNCIL MEETING DATE: FEBRUARY 7, 2007

DEPARTMENT: PLANNING AND DEVELOPMENT

ITEM DESCRIPTION: SDR-17221 - APPLICANT/OWNER: TANGAMANGA LLC

**** CONDITIONS ****

The Planning Commission (7-0 vote) and staff recommend APPROVAL, subject to:

Planning and Development

1. This approval shall be void two years from the date of final approval, unless a building permit has been issued for the principal building on the site. An Extension of Time may be filed for consideration by the City of Las Vegas.
2. All development shall be in conformance with the site plan, landscape plan, and building elevations date stamped 12/05/06 except as amended by conditions herein.
3. A Waiver from Title 19.10.010 J4 is hereby approved, to allow no landscape islands or fingers in the parking lot, and to allow no parking lot trees.
4. A technical landscape plan, signed and sealed by a Registered Architect, Landscape Architect, Residential Designer or Civil Engineer, must be submitted prior to or at the same time application is made for a building permit. A permanent underground sprinkler system is required, and shall be permanently maintained in a satisfactory manner; the landscape plan shall include irrigation specifications.
5. No turf shall be permitted in the non-recreational common areas, such as medians and amenity zones in this development.
6. Pre-planting and post-planting landscape inspections are required to ensure the appropriate plant material, location, size of planters, and landscape plans are being utilized. The Planning and Development Department must be contacted to schedule an inspection prior to the start of the landscape installation and after the landscape installation is completed. A certificate of occupancy will not be issued or the final inspection will not be approved until the landscape inspections have been completed.
7. Reflective glazing at the pedestrian level is prohibited. Glazing above the pedestrian level shall be limited to a maximum reflectance rating of 22% (as defined by the National Institute of Standards and Technology).

8. Air conditioning units shall not be mounted on rooftops.
9. All utility boxes exceeding 27 cubic feet in size shall meet the standards of LVMC Title 19.12.040.
10. Parking lot lighting standards shall be no more than 30 feet in height and shall utilize downward-directed lights with full cut-off luminaires. Lighting on the exterior of buildings shall be shielded and shall be downward-directed. Non-residential property lighting shall be directed away from residential property or screened, and shall not create fugitive lighting on adjacent properties.
11. A fully operational fire protection system, including fire apparatus roads, fire hydrants and water supply, shall be installed and shall be functioning prior to construction of any combustible structures.
12. Prior to the submittal of a building permit application, the applicant shall meet with Planning and Development Department staff to develop a comprehensive address plan for the subject site. A copy of the approved address plan shall be submitted with any future building permit applications related to the site.
13. All City Code requirements and design standards of all City Departments must be satisfied, except as modified herein.

Public Works

14. Coordinate with the Department of Building and Safety to determine whether a mapping action is necessary to remove the parcel lines; comply with the recommendations of the Department of Building and Safety.
15. Remove all substandard public street improvements, if any, adjacent to this site and replace with new improvements meeting current City Standards concurrent with on-site development activities. All existing paving damaged or removed by this development shall be restored at its original location and to its original width concurrent with development of this site.
16. Meet with the Fire Protection Engineering Section of the Department of Fire Services to discuss fire requirements for the proposed use of this facility.
17. Meet with the Flood Control Section of the Department of Public Works for assistance with establishing finished floor elevations and drainage patterns for this site prior to submittal of construction plans or the issuance of any building or grading permits, whichever may occur first. Provide and improve all drainage ways as recommended.
18. Coordinate with the City Surveyor to determine whether a reversionary map or other map is necessary. If such a map is required, it shall record prior to the issuance of the building permit.

**** STAFF REPORT ****

PROJECT DESCRIPTION

This is a request for a Site Development Plan Review for a proposed 11-unit multi-family residential development on 0.44 acres at 1404 and 1408 North 23rd Street. A related General Plan Amendment from SC (Service Commercial) to M (Medium Density Residential) will also be considered on this agenda.

The proposed apartment development is compatible with existing and proposed development in the area. Staff's recommendation is for approval.

ANALYSIS

The site is currently undeveloped. The applicant proposes to construct three apartment buildings and 20 parking spaces on the site. The widths of the property-line landscape buffers meet city requirements. The applicant has requested a waiver of the parking lot landscape requirements, and proposes to place additional landscaping material within the property-line buffers. Staff finds this alternative to be acceptable.

The floor plans show five, one-bedroom, five, two-bedroom, and one, three-bedroom units.

The elevations depict a two story structure with a maximum height of 27 feet four inches. A stucco exterior with a concrete tile roof is proposed.

FINDINGS

The following findings must be made for an SDR:

1. The proposed development is compatible with adjacent development and development in the area;
2. The proposed development is consistent with the General Plan, this Title, the Design Standards Manual, the Landscape, Wall and Buffer Standards, and other duly-adopted city plans, policies and standards;
3. Site access and circulation do not negatively impact adjacent roadways or neighborhood traffic;
4. Building and landscape materials are appropriate for the area and for the City;
5. Building elevations, design characteristics and other architectural and aesthetic features are not unsightly, undesirable, or obnoxious in appearance; create an orderly and aesthetically pleasing environment; and are harmonious and compatible with development in the area;
6. Appropriate measures are taken to secure and protect the public health, safety and general welfare.

In regard to “1”: The proposed apartment development is compatible with existing and proposed development in the area.

In regard to “2”: The applicant has requested a waiver to allow no parking lot landscaping islands. Staff finds the applicant’s intent to provide additional landscaping adjacent within the property line buffers is an acceptable alternative.

In regard to “3”: Access to the site is provided by 23RD Street, a 60-foot wide local street which will not be adversely impacted by this request.

In regard to “4”: The proposed building materials and landscape materials are appropriate for the immediate area and for the City, and are generally in compliance with the Residential Development Standards.

In regard to “5”: The building elevations and design characteristics of the proposed buildings are well-suited for affordable housing and would be harmonious with the design of adjacent development and nearby commercial structures.

In regard to “6”: The proposed development will be subject to regular inspections for permitting and licensing and will; therefore, not compromise the public health, safety, and welfare.
